

# Custom Course Builder

You don't have to be an expert to create customized training for your team.

Deliver a personalized learning experience that meets your company's unique needs — no additional software required! With our Content Vault and intuitive mix-and-match functionality, you can easily combine your own content with Grace Hill's expert training to build custom courses in minutes. Look like a pro with interactive quizzes and activity assignments that boost engagement without busting your bandwidth. Plus, built-in tracking and version history ensure learners have the latest information and provide documentation that mitigates risk.

## Built-in Content Vault Makes Updates a Breeze

Grace Hill's Content Vault is a centralized file management system within our Training platform that keeps all course elements organized and easy to update. Change a single file, and all connected courses are instantly refreshed!

- Manage, modify, track, and deploy content files used in custom courses.
- Search and filter all content to identify elements used across multiple courses.
- Automatically capture custom content in the vault — no extra steps needed.

## Create Engaging Courses Using Mix-and-Match Functionality

Select specific elements of our courses, along with your own custom content, to create a personalized learning experience.

- Personalize training using Grace Hill's course elements available inside your Content Vault.
- When we update Grace Hill content, your custom courses will also reflect the latest information.
- Deliver a customized, engaging, and up-to-date learning experience — no additional software required.

## Easily Track Content Updates and Version History

Ensure learners always have the latest content to avoid confusion and mistakes. Mitigate risk in your organization by tracking important details like training dates and version history.

- Identify which content version learners received and when the courses were viewed.
- View all previous course versions to understand the details learners received.
- Provide past training details for insurance or legal purposes.

**80%**

of organizations using custom learning solutions report improved employee performance.<sup>1</sup>

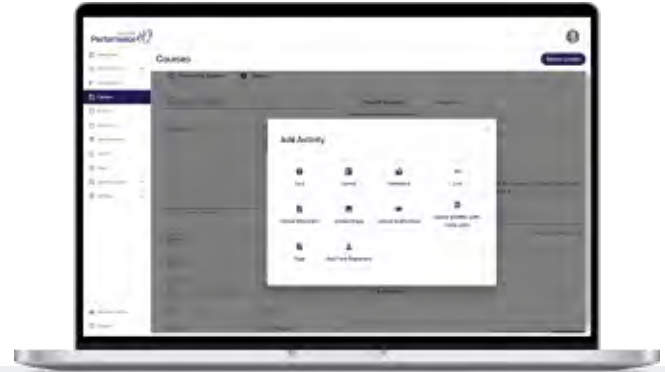

“The process of creating custom courses is very intuitive and easy to follow. There's no learning curve!”

**Julia Balmaceda**, HR Manager, Busboom Group

# Interactive (and Fun!) Homework Assignments

Make learning enjoyable with engaging activities that build on course content with real-world scenarios.

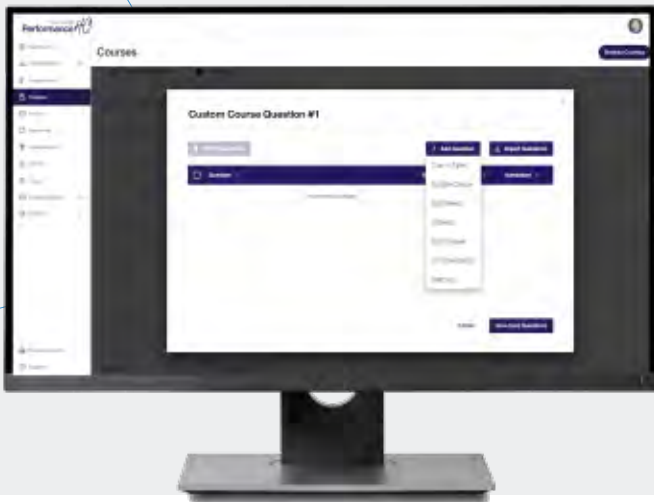

- Create a hands-on learning experience by assigning activities to complete and submit.
- Enhance onboarding with custom assignments for important tasks, like touring the property.
- Enable learners with self-guided instructions to complete and submit assignments through PerformanceHQ.

# Measure Training Success With Quizzes and Surveys

Our built-in quiz and survey creator makes it easy to assess learners' knowledge and capture feedback.

- Flexible options allow for scored quizzes or practice mode to build confidence.
- Keep learners engaged with a robust library of question types, including matching and fill-in-the-blank.
- Opt to randomize questions from a bank to ensure varied, meaningful assessments.
- Create post-training surveys to gather learners' feedback on their experience.
