

Policies in PerformanceHQ

Now you can access Grace Hill's trusted policies through PerformanceHQ, our new technology platform, for an unparalleled user experience!

Our updated user interface is intuitive to learn and can be accessed from any device. Advanced features increase employee engagement and policy compliance with less administrative time and effort.

Improved User Experience

Automatic Assignments

Secure Acknowledgments

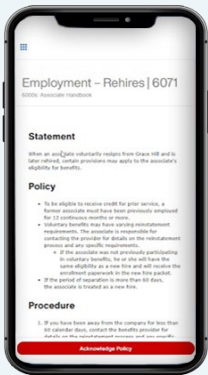

Enhanced Compliance Reporting

Ensure Employees Get the Right Policies at the Right Time

Automated Policy Assignments

Protect your company by automatically assigning policies based on location, position, group, or individual. Our rule-based assignments are based on property type, location, or expectation of the position, so employees receive policies that are relevant and specific to their needs.

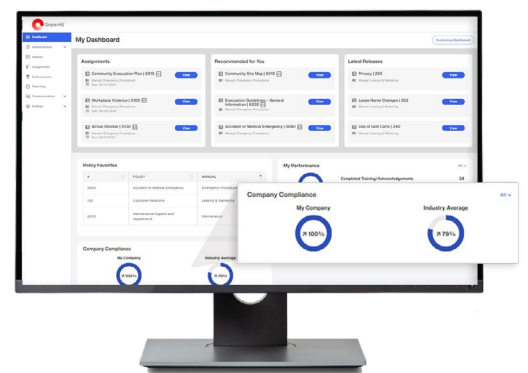

Policy Acknowledgments & Reporting

- Create a digital paper trail with Simple Electronic Signatures (SES).
- Ensure legal compliance while simplifying the process for employees.
- Capture how a policy was written when the employee acknowledged it with detailed version history.
- Create policy acknowledgment reports with compliance and engagement insights.

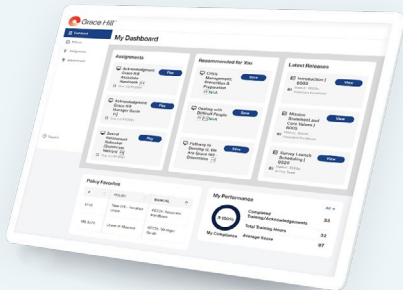

Compliance Tracking Dashboard

- Easily capture user, property, and organization compliance performance data.
- See compliance performance in real time, without running a report.
- Drill down into the data to highlight policy compliance performance for specific properties, positions, or individuals.
- Protect your organization and reduce risk by understanding where to focus your policy compliance efforts.

Enhanced Features Increase Policy Engagement & Compliance

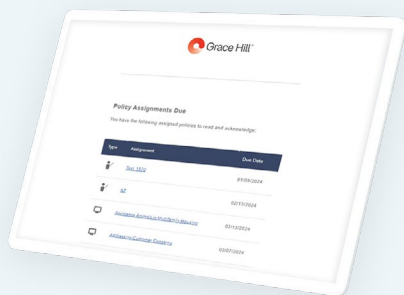

Personalized Employee Dashboards

- Employees can see their required policies on the dashboard, along with newly released or recommended policies.
- Quickly access “favorite” policies from the employee dashboard without having to search.

Improved Search Capabilities

Find policies fast and frustration-free! Quickly find the policies you need — despite potential spelling variations, typos, or incomplete queries.

Automated User Emails

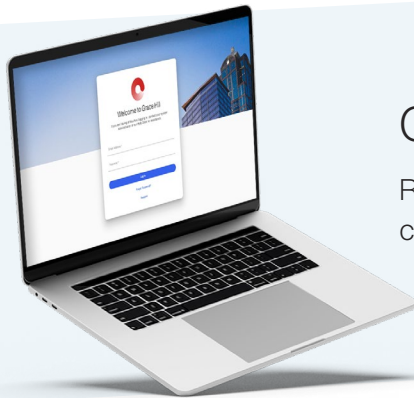

Ensure employees understand expectations and reduce risk by reminding employees of newly added, overdue, or upcoming policies that need their acknowledgment.

Enhanced Language Translation

Ensure your diverse team fully understands your organization's expectations. Effortlessly translate your policies into 130+ languages to create an inclusive — and compliant — culture.

Improved Admin Features & Integrations

Custom Branding

Reinforce your brand and create a consistent employee experience by customizing the PerformanceHQ portal with your logo and brand colors!

Enhanced User Management

- Keep employee data current with seamless SFTP imports and updates from your HRIS.
- Securely share content with authenticated users.
- Send automatic welcome or policy reminder emails.
- Streamline logins across all platforms with Single Sign On (SSO).

Secure Deep Linking

Securely share essential content at the right time and through the right channel. Capture acknowledgments for specific policies or manuals by linking directly to the content.
