

# Training in PerformanceHQ

Experience Grace Hill's Training like never before! Now, the industry's most trusted LMS can be accessed through PerformanceHQ, our new technology platform. It features exciting enhancements designed to increase employee engagement and admin efficiency. Plus, our updated user interface is intuitive to learn and can be accessed from any device!

**New User Experience**

**Automatic Assignments**

**Enhanced Compliance Tracking**

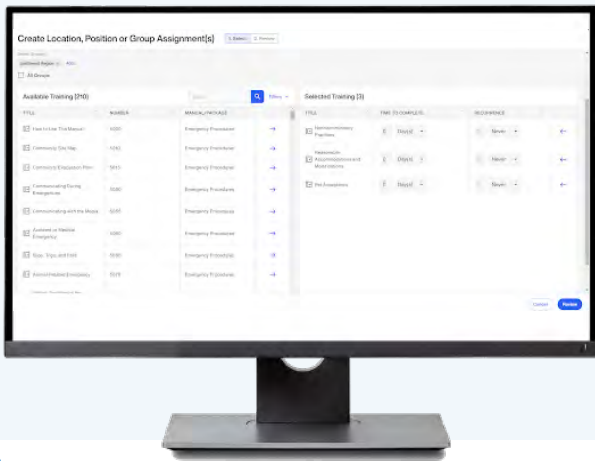

**Awards and Leaderboards**

# Set It and Forget It

Reduce the administrative effort required to manage your training program and better protect your organization.

## Automated Course Assignments

Spend less time assigning courses with automated assignments! Now, admins can create assignments for multiple policies and courses for many locations, positions, groups, or employees — all at one time.

## Recurring Training Assignments

Satisfy recurring training requirements without having to remember who and when to assign specific courses. Ensure employees receive required training for ongoing annual compliance without manual admin work.

## Set Training Exclusions

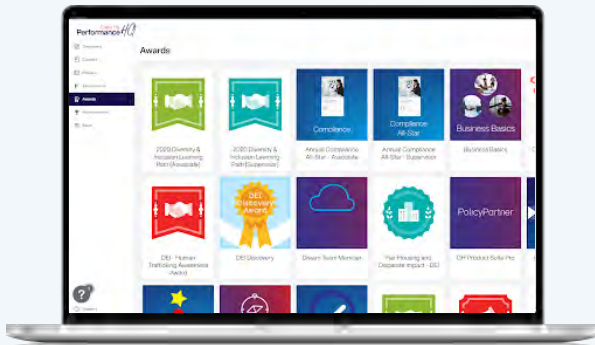

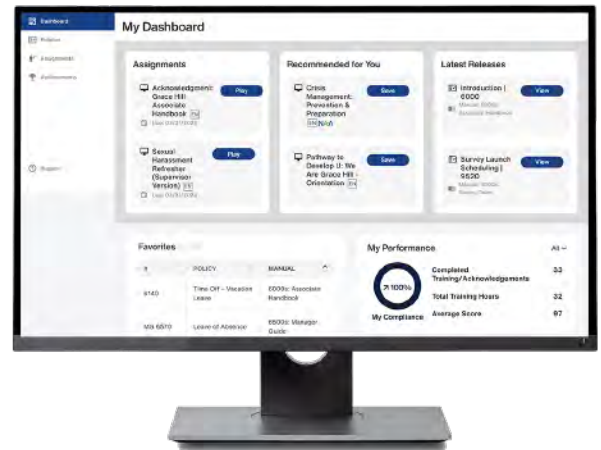

Allow admins to exclude individuals from training assignments if they are on medical leave or have completed the training elsewhere, for example. Required content will automatically re-assign when the exclusion period ends, ensuring ongoing training requirements are met with no gap in compliance.

# Your Employees Deserve a Better Experience

Increase employee engagement and motivate your team with personalized features that gamify, socialize, and boost efficiency.

## Personalized Employee Dashboards

Promote compliance with personalized dashboards where employees can easily see required, newly released, and recommended training in a single view. Plus, they can access their training “favorites” without having to search. Include company announcements, social feeds, videos, and more!

## Awards and Leaderboards

Make training fun and rewarding with achievements and recognition! Performance broadcasting features like milestone awards and dynamic leaderboards provide added incentives that encourage learners to participate and engage.

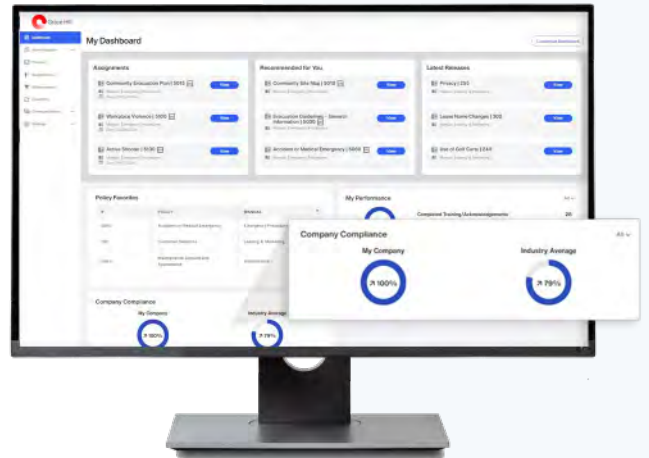

## Enhanced Search Capabilities

Find training courses fast and frustration-free! Leverage our enhanced search capabilities to find what you need without worrying if your search terms are perfect.

# Compliance Shouldn't Be Complicated

## Compliance Tracking Dashboard

Capture training compliance performance in real time without running a report! Quickly drill down into the data to highlight training compliance performance for specific properties, positions, or individuals.

## Bring Your Training and Policies Together

Set your team up for success by connecting Training and Policies in PerformanceHQ! Seamlessly tie courses with established policies that meet industry standards. Plus, you can easily collect secure, digital policy acknowledgments after training!
