

# The Multifamily Marketing Funnel

From Awareness to Signed Lease

# Top of Funnel: Awareness

#### Gain Visibility and Attract Interest

At this stage, the goal is to capture renters' attention by building visibility and interest in your market.

### Mid-Funnel: Consideration

#### Nurture Prospects and Build Trust

Once prospects know you exist, the focus shifts to building trust and answering their questions. In this stage of the multifamily marketing funnel, your efforts should be on nurturing and educating prospects.

#### Bottom Funnel: **Decision**

## Make It Easy To Sign the Lease

At the decision stage, prospects are ready to sign but may be weighing final options.

# Top of Funnel Strategies

SEO & Local Search: Optimize for "apartments near me" and neighborhood keywords.

Digital Ads: Google, Facebook, Instagram, TikTok, and retargeting campaigns.

Social Media: Showcase lifestyle, amenities, resident stories, and community events.

Content Marketing: Neighborhood guides, short videos, and blog posts that highlight your local area.

GOAL: GET ON PROSPECTIVE RENTERS' RADAR.

# Mid-Funnel Strategies

Virtual Tours & Video Walk-Throughs: Give prospects the flexibility to experience your community at their convenience.

**Email Nurture Campaigns:** Automated follow-ups with tailored floor plans and amenity highlights that match your prospects' interests.

**Reputation Management:** Actively monitor and respond to reviews on Google, Yelp, and **Apartments.com**. Renters often compare reviews closely at this stage, so don't overlook this step.

**Personalized Outreach:** Leasing agents should personally follow up to answer specific questions and offer clear, transparent information about pricing, availability, amenities, and neighborhood benefits. Help prospects see themselves living in your community.

GOAL: POSITION YOUR COMMUNITY AS THE TOP CHOICE.

# Bottom Funnel Strategies

**Social Proof:** Highlighting social proof, like resident testimonials and success stories, can provide that final push toward a signed lease.

**Streamlined Leasing Experience:** Digital leasing tools that allow for online applications, e-signatures, and deposit payments reduce friction.

**Proactive Leasing Team Communication:** A strong, responsive leasing staff that communicates effectively, both in person and virtually, helps prospects feel valued and confident.

**Targeted Incentives:** Limited-time promotions, move-in specials, or flexible lease terms can tip the scale in specific, targeted circumstances.

GOAL: GIVE RENTERS CONFIDENCE TO SIGN THE LEASE NOW.
